

UNIBOOT DUPLEX LC PATCHCORD & MPO PATCHCORD

*With EZ-Through™
Anti Bending Optical Cable*

- With special design for high compressive load ability, prevent fiber broken during use.
- Anti-bending ability to reduce the loss increase in small bend radius.
- Designed for high density applications in data centre environment.
- Great anti-micro bending for mini-GBIC, QSFP transceiver module, DVI fiber extender and HDMI, USB, Thunderbolt, AOC cable assembly.

EZ-Through™ Anti Bending Optical Cable

Application for Uniboot Duplex LC Patchcord & MPO Patchcord

- With special design for high compressive load & pulling durable ability, prevent fiber broken during use.
- Anti-bending ability to reduce the loss increase in small bend radius.
- Designed for high density applications in Data Centre environment.
- Great anti-micro bending for mini-GBIC 、 QSFP transceiver module 、 DVI fiber extender and HDMI 、 USB 、 Thunderbolt 、 AOC cable assembly.
